Loans and Collections

VOLUME 24, No. 8.

## NEWS NOTES

Michael Harley, of London, Eng., land custodian of "Alpha" the robot, was born yesterday at the Canadian National Exhibition, Toronto, had to go to the hospital following an unprovoked assault on the part of the feminine machine. Harley was standing with his back to "Alpha" and had just turned when the robot turned and belted him with a mallet, knocking him to the floor. After turning on her master the robot stood motionless and expressionless until someone else entered her around.

Harry Morgan, formerly of High River, started the good citizens of that town by treasuring there on a visit. He had been presumed dead for 14 years but had recently appeared among the "missing" in the war. Mr. Morgan is a police officer in Birmingham, Washington.

A horde of pigs attacked a 4-year-old Curious Shearer while the child was playing in a field at Clarendon. The lad suffered several flesh cuts and some of his teeth knocked out.

Several weeks ago Jack Smith, a young man from Peterboro, Ontario, started out on a voyage to Europe. The footloose youth met his end in the gulf of St. Lawrence and last week his body was found in Newfound.

John Pearce, farmer and boy and mother Australian who now lives in Hamilton, Ontario, beat 100 Miles of Philadelphia by 15 lengths in a three-mile sculling race at Toronto. Pearce has never lost a rowing contest in his career.

At the Labor Day shooting tournament held at Drumheller, Lieut Steve Johnson, of Wayne, won the grand aggregate with 150 of a possible 200. The heat shots at Calgary, Wayne, and Drumheller completed Lieut. Johnson, who is an old Bassano boy, has just returned from Ryde, where he was on the rifle shooting team representing Canada.

Announcement has been made of the appointment of official receivers under the Farm Debt Compromise Plan. The appointed to Calgary is Harry Christensen and for Edmonton, Mr. McNaughton. Mr. McNaughton is a former resident of Brooks, having been on the engineering staff of the C.P.R. D.N.E. He was retired with pension and is still there and has been living in Calgary.

Providing relief for 66,000 individuals in Alberta, Saskatchewan and in eastern in Canada cost \$42,500,000 in 1933. In Montreal, Toronto, Winnipeg and Vancouver 465,173 individuals extisted unemployment relief. In Montreal the total cost of relief last year was \$18,150,000; in Quebec, \$16,000,000; in Manitoba, \$16,525,801. The per capita costs of relief: Montreal, \$10.35; Toronto, \$12.71; Vancouver, \$16.05; Winnipeg, \$16.50; Quebec, \$3.42; Victoria, \$9.30; Ottawa, \$14.18; Hamilton, \$15.32.

Shooting session for ducks and Hungarian partridge opened Sept. 15. The provincial government anticipated a deficit of \$185,000 for the current year's operations.

Ranchmen's oil well near Alderidge is expected to be a large producer of crude oil.

The Conservative party plans to nominate a candidate in every riding in Alberta for the next provincial election according to Mr. Duncan, provincial leader. Nominations and conventions have been called for Cardston, Pincher Creek, Lethbridge, Medicine Hat and Taber to take place as soon as harvest is over. The Conservatives plan to fight the J. M. Lethbridge riding, which is the only one in the Taber riding. Prior to his joining the U.F.A. party, Mr. McLean was a Conservative.

D. C. Coleman is vice president of the Canadian Pacific Railway in en-cussion to the late Grant Hall. Mr. Coleman up until his appointment, was in charge of western lines. The new vice president is a native of Carlisle, England, who has been 20 years old. He entered the service of the railway in a clerical capacity in 1891. Prior to that he was employed in newspaper work in Belleville, Ont.

M. J. Colquhoun, leader of the G.O.P. in Saskatchewan and principal of a high school in Regina, has received orders to quit politics or his job. He has refused to do either.

Jimmy McLaren and Barney Ross will fight their scheduled championship battle on Saturday, 13th July.

## Proposals for Settlers to Take Over Eastern Irrigation Block

## HUSSAR NEWS

HUSSAR, Sept. 11.—On Sunday Rev. A. R. Aldridge, of Calgary, preached at the Hussar school house, and also held an organizing meeting, in which were present Dr. E. H. D. Brown, F. R. Revers and the president of the Ladies' Aid, Mrs. W. D. Moffat. He announced that services will be held on September 30, at noon. The Rev. Mr. E. H. Gordon, of Langton, will preach and on Nov. 14, Rev. H. L. Powell, of Calgary, will take charge of services.

If it had not rained, harvesting would have been fairly well advanced. There will be a threshing of the grain in the winter. There will be threshing for all settlers some time during October in Brooks, when it is hoped a conference will be arranged and a committee will be appointed to consider the project. The C. P. R. is primarily a transportation company, so far as the irrigation project for the purpose of building their lands and thus providing business for the railway. The land contracts provide that when 75 per cent of the land is sold, the settler shall be given a choice of either continuing the irrigation system. This clause was inserted for the particular purpose of enabling the company to withdraw from the irrigation and land business in the area, once a sound basis of settlement had been established.

**Wipe Off Capital Cost**

At the present time the company realizes the predicament of a large number of settlers in the block, due principally to low prices for farm commodities. It is the opinion that the bulk of the farmers are in agreement that the company must confine itself to the railway business, it is willing, the officials stated, to consider the turning over of the entire irrigation system, other than what is necessary in its endeavor to settle the area at a figure which would mean the virtual wiping off of the capital cost.

**The Committee**

This proposal was first mentioned at a meeting held by Capt. J. Anderson of St. Leon, who had been a frequent visitor to the block last year. Subsequent public meetings were held and a committee of representatives from each division appointed. This committee consists of the following: President, T. G. White, of Brooks; Vice-President, G. E. J. Hall, of Medicine Hat; Secretary, W. J. Hall, of Hussar; T. J. Shand, of Taber; P. J. Hartley, Tilley, a Parchmarrow, Cansils; R. Burrows, Countess, Jon Hartley, M. J. Hartley, Bassano; Dr. H. R. Jones, Bassano; Dr. H. R. Jones, Dr. S. Smith, Lethbridge; Dr. G. Smith, Lethbridge. The majority of this committee, along with Capt. Anderson of St. Leon, and with Capt. E. LeGrandeur, and E. J. Hall, both invited to Bassano on Monday.

W. Smarbridge, of Bassano, was in Hussar on Monday.

Mr. Webster, of Calgary, is in Hussar this week.

Mr. and Mrs. H. A. Trendre motored to Calgary on Monday.

Mr. and Mrs. O. Christie and son, returned from Calgary on Friday.

Mr. Christie is in improved health.

The Misses Lois and Dorothy Nelson, son and daughter of Mrs. W. J. Hartley, Collins and Gordon Reeves respectively, were married at Hussar on Tuesday and Miss Nelson remained to attend Nels.

Mr. and Mrs. H. A. Trendre motored to Calgary on Monday.

Misses Lois and Dorothy were well received by the Hussar visitors.

**E. LeGrandeur** and E. J. Hall invited to Bassano on Monday.

W. Smarbridge, of Bassano, was in Hussar on Monday.

Mr. Webster, of Calgary, is in Hussar this week.

Mr. and Mrs. H. A. Trendre arrived here on Saturday and are visiting at the W. D. Moffat home.

**FIRE BRIGADE HOLDS WORKOUT**

On Wednesday afternoon, Dr. E. Hartley, chief of the local volunteer fire brigade, rang the bell at the Town Hall. In the space of very few minutes, ten of the sixteen firefighters were on the job. The horses were hitched to the wagon, rolling down the street with others carelessly at hand, having done their duty.

After a trial run of two or three blocks, a horse was rigged up to a hydrant and the pressure tried. Every thing seemed to fit shipshape and the apparatus was returned to its resting place.

The organization does not get a great deal of practice since fires in Bassano are infrequent, but a trial run and then will keep the rust from forming on the track.

## LATE BANK CLERK KNOWN IN TOWN

Larry Leppen, the bank account at Dalhousie who committed suicide last Wednesday was well known in Bassano. He was the son of a former resident of Cluny, his father having managed a hardware store there for a number of years.

Consequently the wife and mother of the deceased young man reached Bassano the day the news of the sad affair came out in the daily press. They did not know it was a case of suicide until they got to Bassano. They were traveling by auto from Medicine Hat where their home now lies.

Larry Leppen, who married about one year ago, left his home about 6:30 Wednesday of last week, to go to the bank where some officials from Calgary were conducting an examination of the books.

The bank had sent to the library exhibition grounds, parked his car and shot himself through the breast with a shotgun. Some nearby residents heard a shot about 7 p.m. Next day he was found lying on the floor of the bank where the unfortunate young man was found lying beside the car. The gun was by his side and a fearful wound in his chest.

Jimmy McLaren and Barney Ross will fight their scheduled championship battle on Saturday, 13th July.

## Farewells for Mr. and Mrs. Smith

Wallace Smith to be Spirited Miss in Business and Sporting Circles of Town—Took Part in all Local Activities

**An Impromptu Meeting**

Against Local Opponents—Sally Allegy of Bassano Team Count

Last Sunday, September 8, a crowd of tennis players from Namaka made the trip to Bassano for a few friendly games of tennis.

Wallace Smith, editor of the Bassano Mall for eight years, was officially farewelled.

H. Beeler viewed the regret of the players from Namaka, who had a capable pair and expressed his thanks.

Mr. Smith met with success in his new venture, Wm. McLaw, setting

for the Board of Trade, presented the departing editor with a leather key holder, a gold and silver fob and a silver cigarette holder.

Walls regretted the loss of such an ardent supporter of tennis, golf and curling.

Mr. Smith thanked the Board for their kind wishes and briefly outlined his plans for the future. He said that with the return of good crops and good times, Bassano would rapidly regain its former progress.

Mrs. Wallace Smith was honored by a number of guests and briefly outlined his plans for the future. He said that with the return of good crops and good times, Bassano would rapidly regain its former progress.

## Board of Trade

## Resumes Business

After a somewhat vacation, the Bassano Board of Trade met at the Imperial Hotel last Wednesday at 6 o'clock to function for the rest of the year. A good-sized crowd of about 30 members was present and two business men from Medicine Hat were visitors.

A motion for a donation to the Bassano Local Sunshain Organization was read by the secretary. A motion was passed to set aside the sum of \$25 at the next meeting for this purpose.

The secretary of the Board, in behalf of the Swimming Pool committee, reported a deficit of about \$150 on the annual sports day held last July 2nd. Taking into account the bad weather which prevailed throughout the day, the sum was not considered excessive.

With a means of adding to income of the Board were discussed. A motion was recorded whereby the Board would hold a carnival in the curling rink before the ice is made again.

Further discussion on this subject was postponed till the next meeting.

Mr. Hodges and V. Parrish, of Medicine Hat, delivered short speeches, commanding the Board of Trade on its wide range of activities as compared with other Boards of the province.

The chairman of the Parliamentarian committee reported a deficit of about \$100 on the annual sports day held last July 2nd. Taking into account the bad weather which prevailed throughout the day, the sum was not considered excessive.

## A YEAR OF DROUGHT

Nineteen hundred and thirty-four will go down into history as the year in which drought seared the world.

The southern prairies of Canada know what drought is, but the absence of rain for weeks during spring and summer is a novelty—and a trying one—for Europe.

Australia, with its basin-like continent (hollowed out in the centre) is inured to drought, but the middle states of the U. S. A. are usually favored with abundant rain in the growing season. This year they were very dry.

The absence of rain is not unusual in certain large areas of Russia, but the Balkans generally get plenty of moisture. 1934 brought drought and misery to the Danube Basin.

Blistering drought stunted the crops and browned the pastures of the Northern Hemisphere.

It has brought Fear and Unhappiness to millions of farmers. Nineteen Thirty Four was not a kindly year for the productive earth.

## SUMMER IS PASSING

Red Autumn comes grandly over the harvest fields, a remembrance that summer is on the wane.

Bewildered flowers in the gardens fight manfully against frosty night and raise their spangles bravely to the warm noonday sun.

Vegetables, lush with summer's growth, are ready to leave the brown earth for the cellars or the housewife's thrifty jars lining the shelves of the storerooms like wooden soldiers.

Another season with its hopes and disappointments is vanishing into its place on the scroll of the years.

And mankind lives on and hopes and plans. The irrepressible spark of hope within the human breast still persists.

The Alberta autumn nights, cool as the kiss of the ocean, are welcome once again. But wistfully we take a backward look upon a departing summer.

## THE QUESTION OF DEBTS

Forty four municipal units in Ontario have defaulted on their bonds. Ontario is Canada's wealthiest province.

Hundreds of other municipalities throughout the Dominion are faced with inability to pay bond interest.

The western provinces, Saskatchewan particularly, would have defaulted but for federal government loans and federal credit.

Germany, one of the greatest nations of the world, not only has defaulted her war debts, which were revised downward time and again, but she has also defaulted her commercial loans.

Russia wiped off millions of dollars of debts with a Bolshevik sponge. They will never be paid.

France can her debt by nearly four fifths through monetary inflation; Italy, Austria and other European powers did likewise.

Maybe Bassano's financial position, in the light of Dominion and world affairs, is not so bad after all!

## POSSIBILITIES OF RADIO

The future of western civilization may well be guessed by a simple experiment. Find out what the people do with their radios.

"You think your souls are saved because you invented the radio," Ghandi once said to a western man, "but of what value to you is our method of broadcasting when you have only drive to send out?"

Radio is a great tool of civilization. If wisdom is broadcast—and listened to—great advances may be made in our civilization. If the programs are confined to "junk," incited by bad speech and insistent hawkings of this and that and merchandise, the great invention may be a disappointment.

The nation's genius for educational, artistic and social

statesmanship should be placed in control of radio programs to a much greater extent if the people are to have full value of the invention.

But the whole people might be schooled in the flawless use of our mother tongue.

Ultimately when the radio brings the whole world to our ears we should be able to master many languages more easily and more effectively than they can be learned in a classroom. If the same statesmen were equal in ability to the sum total of inventors the nutritional results of the inventive and inventive genius of that last hundred years would be transformed into the rich and sustaining lifeblood of a new and better civilization.

The ghosts of the great inventors are forever looking down wistfully, wondering when we shall make full use of the tools of civilization they have given us.

## THE CENTRAL BANK OF CANADA

At the last session of the federal parliament phone were made for the establishment of a central bank for Canada. Last week Graham Ford Towers, 37 years old, assistant to the general manager of The Royal Bank of Canada, was appointed governor of this new bank. In the early stages of discussion on the central bank it was thought best to import a governor from Great Britain, the Old Country having had abundant experience in central banking. The name of Sir Edward Peacock, London, England, financier, and former Canadian, was mentioned. Sentiment ruled against the idea and so one of the members of the House of Commons suggested that

the purpose of the Canadian central bank was principally to control the ebb and flow of credit in the Dominion. It is understood the institution will have the power over the issuance of money and will be the custodian of gold in Canada. It will probably be operated along semi-governmental lines, much after the fashion established by central banks in operation elsewhere, particularly in Europe.

Certainly the new bank will give the government a much more direct control over monetary affairs in Canada and consequently much more responsibility. But people who expect this institution to solve all the troubles of Canada, financial and otherwise are liable to be disappointed.

## LITTLE BOY

Wide with wonderment your eyes,

Smiling beauty round you lies

On your earth and in your skies

Life, threshing with surprises,

Little boy?

Lucky Star that set your stage,

Little boy?

This is the happiest moment age,

History's whitest, dazzling page

At your feet baby's golden cage,

Little boy?

Threshing tasks for human needs

Little boy,

Beckoning him who hears and heeds

Cracking systems, crumbling

cracks,

Earth to earth, cycles speed,

Little boy?

Phantoms hint the way you go,

Little boy,

Phantom all an empty show

Fleeing from your lighted blow,

Fleeing from Truth's golden glow,

Little boy?

Shoot with visions bright as fire,

Little boy,

May you live in your soul

As my own soul, highest, highest

Far above the dross and mire

Of the earth's everlasting soil,

Little boy?

Bert Hoffmann,

Cheadle, Alberta

Flying insects are killed by a table lamp that greatly resembles the ordinary electric desk unit. The distinguishing feature is a coil of charged wires encircling it like a shade insets flying against it are electrocuted by the electricity with which the wires are charged.

## "As pure as . . . BEER!"

Many people may be surprised at this unexpected comparison: "As pure as . . . BEER." Yet it is a simple fact that there is no article of food or drink produced with greater care and in greater purity, than the beer of today.

Obtainable at our Warehouses, Vendor's Stores and your LOCAL HOTEL.

## If we only could . . .

A Minnesota Editor moralizes thusly:

"If we could sit with him, bearing all the way around for just one week with another fellow's problems and know a lot more than we do about his shortcomings and of his present failures. Let them sit with us for a week, and we'd have them in the office, the editor run a garage, the accurate man edit the paper, the editor run the farm, and we'd all have our eyes so wide open to what the others are up against that we'd have the heart to help them. We'd have the heart to realize our own faults, and we'd be un-sympathetic again. Then if the whole cadre of us were to move on various farms and operate them for another six days, then we'd all be more understanding, more sympathetic, more kind, and harmony prevailing would make little old country people just

about the best place in the world to live. It can't be done, of course, but we could take the thought to ourselves that we don't know anything about the other man's job and conclude that for all we know, he is handling it in good shape."

The only ship that comes in for the man who waits is Receivership.

## Following An Ideal

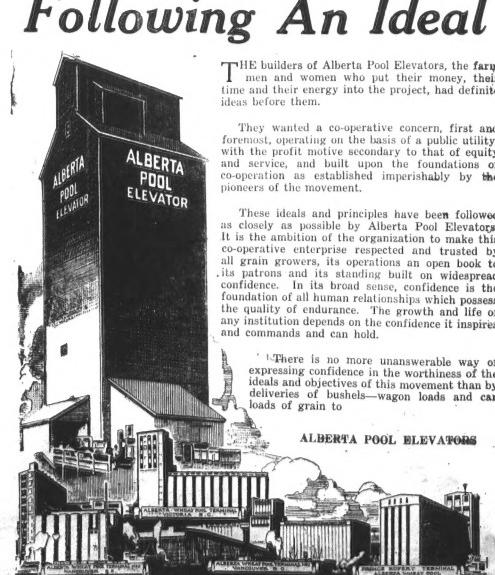

THE builders of Alberta Pool Elevators, the farm men and women who put their money, their time and their energy into the project, had definite ideas before them.

They wanted a co-operative concern, first and foremost, operating on the basis of a public utility, with no profit motive secondary to that of equity and service. They based the foundations of co-operation as established imperishably by the pioneers of the movement.

These ideals and principles have been followed as closely as possible by Alberta Pool Elevators. It is the ambition of the organization to make this co-operative accepted and trusted by all grain growers. Its operations are directed to its patrons and its standing built on widespread confidence. In its broad sense, confidence is the foundation of all human relationships which possess the quality of endurance. The growth and life of any institution depends on the confidence it inspires and commands and can hold.

There is no more unanswerable way of expressing confidence in the worthiness of the ideals and objectives of this movement than by deliveries of bushels—wagon loads and car loads of grain to

ALBERTA POOL ELEVATORS

Here's a bit of news from far Baluchistan. It seems that the British recently put in a telegraph line in that part of the country at great expense and effort, so that it will serve to carry their handwriting and talk to survey their handbook and wait for cheers. Sure enough the applause was forthcoming, but in a somewhat unexpected form. The natives got up a resolution to express their appreciation — of "the grateful shade cast by the telegraph poles along the road."

## WHEAT

## HEAVY PRIMARY DELIVERIES OF WHEAT

The month of August created a record in the amount of deliveries of wheat from the grain market in Western Canada. The volume of wheat was in the vicinity of 34 million bushels, a figure never reached in any previous year for that month.

It was quite obvious that a large percentage of the wheat delivered was sold in the heating market. The foreign buyers did not think that the time was opportune to purchase supplies and consequently wheat slipped something like 12¢ a bushel during the latter part of the month having a sharp decline and this aided in stabilizing a shaken market. The price situation from now on will depend on whether the rush of deliveries and selling continue. In Western Canada as well as upon the developments in the Argentine crop situation, September is a critical month for that crop.

It is quite interesting to observe the reaction of the Argentine grain markets to the developing price in Canada. With every increase in prices in the Winnipeg Exchange Argentina went down an identical amount keeping steadily around 13¢ a bushel under Canadian prices.

## COST OF NOT RAISING HOGS

"Uncle Charlie" submits the following:

"Mr. Blank at Northampton has a friend who received a government check for \$1,000 this year for not raising hogs. The volume of hogs raised in the vicinity of 34 million bushels, a figure never reached in any previous year for that month.

It was quite obvious that a large percentage of the wheat delivered was sold in the heating market. The foreign buyers did not think that the time was opportune to purchase supplies and consequently wheat slipped something like 12¢ a bushel during the latter part of the month having a sharp decline and this aided in stabilizing a shaken market.

The price situation from now on will depend on whether the rush of deliveries and selling continues.

"The friend who got the \$1,000 got the same amount of hogs. So you see the argument we might easily not raise 1,500 or 2,000 hogs. So you see the possible profits are limited only by the number of hogs you do not raise."

"I'm fine," (Signed) P. M. FF.

P. S. The friend who received the \$1,000 check has been raising hogs for many years. He never even thought he would have so many more profit.

H. W. Ford  
Alberta Provincial Elevators operating terminals are all on the western prairies. Two new terminals were opened in 1928; one being Pool terminal No. 1, a giant structure built by this organization in 1927; one terminal is operated in Prince Rupert and one in Victoria.

You can't believe everything you hear, but you can repeat it.

## CANADIAN ADVERTISING

A compilation showing the amount of advertising carried by newspapers in the United States and Canada during the first six months of 1934 places the Canadian figure in second and third places respectively. The volume of their advertising being exceeded by only one newspaper in the United States. Two Montreal daily papers also ranked high in the list. Volume of newspaper advertising is an indication of business conditions.

## THE WESTERN ROUTE

As evidence of the fact that the Alberta Wheat Pool is very much in the lead in the development of the western grain route it may be cited that the organization has shipped a total of 303,145,388 bushels of wheat via Pacific ports since the year 1923 when it started business. The year of the largest volume shipped was 1933 when more than 491 million bushels were contracted westward.

Alberta Pool Elevators' operating terminals are all on the western prairies. Two new terminals were opened in 1928; one being Pool terminal No. 1, a giant structure built by this organization in 1927; one terminal is operated in Prince Rupert and one in Victoria.
